

Innovation meets Secure

You can just Lock up and Go

It's not often that you find something that truly has it all. Which is what gives the new **Delf Linear Secure** range the edge. Offering top exterior security in one easy-to-install mechanism, this innovative product combines all the functions of a front door lock in one latch hole, including exterior security lock, passage set and deadlock innovation, and Tesa TE2 (equivalent to GR9) keyway. Superbly styled in a Contemporary or Classic edition, in a range of quality finishes and offering a selection of matching internal levers styled for a pleasingly consistent look, this is today's ultimate answer to Lock up and Go.

Working Securely to give you peace of mind

The Linear Secure is driven by latest technology and design to provide an integrated and innovative front door solution including the following features for easy use and top security:

Panic-release Design

A push-button, "panic release" lock-set on the interior allows for instant exit by simply engaging and rotating the lever.

Versatile installation to fit right or left doors

The levers are versatile for use on right or left doors, and can be fitted for purpose on installation as appropriate to requirements.

Standard Lock-hole size allows you to make use of existing holes

There's no need to adjust the hole size in most cases. The Secure is conveniently sized to replace previous standard 54mm key-locks.

One key allows ultimate convenience

Superior quality 5 pin Euro cylinder can be keyed alike to other Delf products for same key convenience across multiple doors.

Press button lock – Make a Keyless Exit

Easily Secure the door with just the press of a button on your way out.

Doubles up as a passage set!

The Secure operates as a passage set when unlocked and unsnibbed – how you use it is up to you!

Deadbolt Sure!

The deadbolt on the Secure has an additional 20mm throw, ensuring extra security and peace of mind.

Delf 7-year quality Guarantee Warranty

Like all of Delf's products, we back the quality of our Secure range with a 7 year Quality Guarantee.
